1 — Inleiding

Het volgende verslag betreft de Software Requirements Specification voor de afstudeerstage van Maurice Berentsen (hierna: student). Dit document volgt het document: "*Software Requirements Specification Template*" (Van Heesch, 2016)

Het beschrijft TODO

1.1 Overall Description

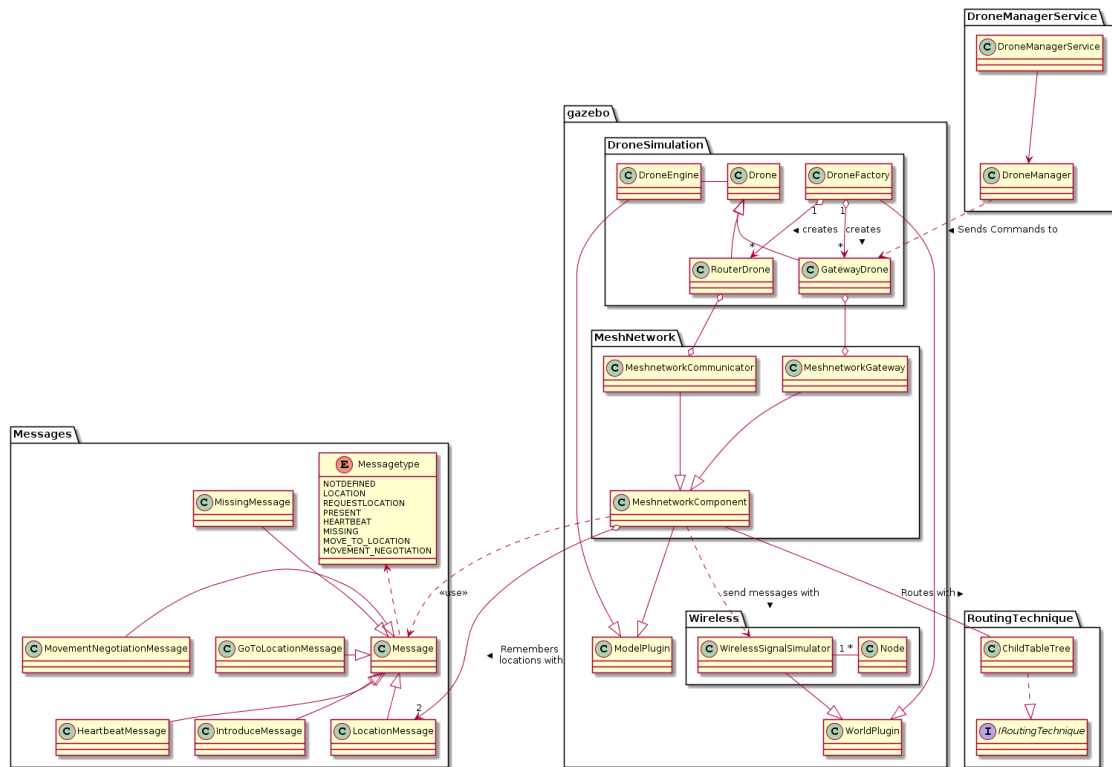

1.2 User Classes and Characteristics

1.3 Operating Environment

1.4 Design and Implementation Constraints

1.5 Product Functions

2 — Domein Model

Figuur 2.1: Domeinmodel

3 — Use-case Descriptions

3.1 Use case

3.1.1 Fully-dressed use case description

3.1.2 System Sequence Diagram (optional)

3.1.3 Operation Contracts (optional)

3.2 Use case 2 (and so on)

4 — Other functional requirements (optional)

5 — Non-functional Requirements

5.1 Performance Efficiency

5.2 Security

5.3 Reliability (and so on)

Literatuur

Van Heesch, U. (2016, 21 september). *Software requirements specification template*.
